ACADEMIC PROJECTS

Job Portal System

- Built a full-stack job portal enabling candidates to browse and apply for listings, and recruiters to post and manage openings.

Library Management System

- Developed a system to manage book inventory, member records, and issue/return workflows through a web interface.

ChatSphere

- Built a real-time chat application supporting user authentication and live messaging between users.

Donation Platform System

- Built a platform connecting donors with causes/recipients, supporting listing, tracking, and donation management.
